Corporate Overview:

Psi Systems, Inc. (“Psi-Sys”), based in the Metropolitan Washington, DC area, is a recognized leader in the development and implementation of advanced satellite communications (“satcom”) solutions. The company provides breakthrough capabilities for its customers through integration of unique value products and technologies that enhance the performance of our customers’ legacy network infrastructure.

Noteworthy achievements for Psi-Sys include the following:

- Stable management team, intact since mid 80’s.
- >20 years experience in satcom industry.
- Key partnerships in place with industry leaders.
- Facility clearance and SECRET clearances for key staff positions.
- Contract vehicles available today, either directly or via partner relationships.
